What Is a Direct Object?

Definition and Basic Concept

A direct object is a noun, pronoun, or noun phrase that receives the action of a verb directly in a sentence. It answers the questions "what?" or "whom?" after the verb. Essentially, it completes the meaning of the verb by indicating what or whom the action is performed on.

Example:

- She reads a book.

Differences Between Direct and Indirect Objects

While the direct object receives the action directly, the indirect object indicates to whom or for whom the action is performed.
